**Features:**

- Engine design allows the tool to work as fast as the end user with consistent nail penetration into both soft and hard joints.
- Sequential operating mode allows for precision placement and the bump operating mode provides the user with production speed.
- 6 position dial allows the user to move between applications without having to re-acquire exact depth setting
- No downtime or excess troubleshooting involved for jam clearing
- ContactTrip Lock-Off disables the trigger and is easy to engage/dis-engage
- Integrated LED lights for long life and durability
- Rear-load magazine offers loading styles which provide versatility to accommodate the end user's preference
- Top cap is impact resistant and easy to remove for troubleshooting
- Provides increased portability and versatility on the job-site.
- Increased visibility and durability along with protection for work-surface from the contact-trip.
- Part of the XRP DEWALT Cordless system
- 20-degree angled magazine (up to 120 nail capacity) & will accept DEWALT and Paslode 20-degree nails
