

2,200 lb. Capacity Low-Lift Transmission Jack

- The 8-1/4" low height is perfect for aerodynamic trucks with low ground clearance.
- Special mounting adapter fits popular Eaton® Fuller® RoadRanger® transmissions used on nearly all Class 7 and 8 heavy-duty trucks. Mounting plate angle is adjusted with the turn of a wrench.
- Degree of tilt: 20° back, 15° forward, 12° side-to-side.
- Swiveling pump handle permits ease of operation in restricted working spaces. Fast-acting pump quickly raises lifting arm.

No. 5019 – Low-lift transmission jack. Includes No. 220492 adapter for Eaton® Fuller® RoadRanger® transmissions (also available separately). Wt., 330 lbs.

Model	Capacity (tons)	Overall Length	Overall Width	Max. Height	Min. Height	Weight
5019	1.1	52"	32-1/2"	36-1/2"	8-1/4"	330 lbs.

Accessories for No. 5019

No. 221790 – Mack transmission mounting brackets. Provides a stable platform for Mack T200 series transmissions. Wt., 20 lbs., 14 oz.

No. 49611 – Eaton® Fuller® RoadRanger® auxiliary housing adapter. Bolts directly to the countershaft bearing caps to provide a stable platform for removing and installing the auxiliary housing. Wt., 11 lbs., 13 oz.

No. 305811 – AdjustaGrip® mounting arm (one only). Each arm has five points of adjustment, permitting its attachment to the normal mounting holes of the component. Wt., 3 lbs., 11 oz.

No. 220492 – Eaton® Fuller® RoadRanger® transmission adapter. Wt., 22 lbs.

No. 528150 – Eaton® "Lightning" adapter. Used with the No. 5019 transmission jack. Wt., 12 lbs.
