## RED DRAGON JET TORCH KITS:

Use high capacity Red Dragon Jet Torches to knock down heavy weeds and hard to reach brush fast and easy. Perfect for road and irrigation ditches, fence rows, culverts and more. The torches are especially suitable as "pear burners" in the Southwest, where spines are flamed to make cactus plants edible for livestock.

We offer two Jet Torch Kits. Both models maintain a pilot flame and are triggered to full flame with a convenient squeeze valve at the handle. Jet torches operate up to full tank pressure and are as close to a flame thrower as we make. We recommend no less than a 100 lb. vapor cylinder. All Red Dragon Torches are made in the U.S.A.

### JET 4 C and JET 410 C – 1,000,000 BTU

The Jet 4 C Torch Kit is the smaller of the 2 Jet Torch Kits. The torch is 3 feet, 4.5 inches in length and is rated up to 1,000,000 BTU. It is capable of producing a flame up to 5 feet in length.

Kit includes:

- 1,000,000 BTU Torch w/plastic grip and squeeze valve
- 25' (JET 4 C) or 10' (JET 410 C) U.L. Listed LP Gas Hose
- U.L. Listed P.O.L. Fitting
- U.L. Listed Regulator
- Pipe Thread Compound

#### JET 4 C (25' Hose)    JET 410 C (10' Hose)
