SL-1218 Orbital Floor Polisher

Orbital Polishers:

The SL-1218R will add a different dimension to your fleet of floor care machines.

The Design allows the DIYer to accomplish the work of a rotary polisher without knowing how to run one!

Applications include:

- | Screening floors after sanding with the SL-8 & SL-7
- | Screen & recoating polyurethane floors
- | Waxed floors scrubbing & polishing
- | Wood deck sanding & refinishing
- | Parquet floor sanding & refinishing
- | New & pre-finished floor sanding & refinishing
- | Tile Maintenance

The SL-1218RHS is a high speed model designed specifically for sanding decks, and runs at twice the RPM and is also available from us.

NOTE: 12" x 18" Essex Silver line 1218thkw thick white pad MUST be used with this item to ensure proper use and outcomes.

Standard Equipment:

12" x 18" Orbital Polisher, 1hp, Cast Aluminum base with weight built into the chassis for low center of gravity, Sealed Baldor motor protected from dust, fan cooled, thermal overload on motor, Heavy Duty Rubber towers in four corners support the base & plate protecting the motor shaft and allowing for easier operation. Larger (5/8") orbital action, Armature has a 50lb pre-load to absorb shock and start easier.

Net Weight - ? lbs.

Shipping Weight - 125 lbs.
