

## FEATURES AND BENEFITS

### GRINDER-VAC

- Efficient, cost-effective method of concrete surface preparation
- Use for concrete cleaning or planing, general floor finishing preparation work and for removal of coatings, mastics, epoxies, urethane or paint
- Controls dust for a cleaner jobsite; allows other trades to work simultaneously
- Heavy-duty high RPM grinder provides superior performance
- Convertible dust shroud (7" model) and cut shroud (5" model) available for edging
- Shroud kits to fit popular grinder models—convert your grinder and control the dust
- Variety of available dust collection systems
- Use the 7" model with dolly for stand-up operation

5" Grinder-Vac

5" Grinder-Vac
