THE ORIGINAL "HOT BOX" CH-220 200,000 BTU/hr

Heater Dimensions: 16 1/2" H x 21 1/2" W x 26" D

When it comes to durability and effective propane heating, it's hard to beat the 200,000 BTU/hr CH-220 "Hot Box." Its, unique, efficient design forces the heat downward, keeping your work area warmer. The CH-220 is also the toughest heater in its class and ships with your choice of 10', 25' or 50' hose assembly. Comes complete with 18 PSI regulator and push button ignition. Ships mostly assembled – just attach the hose assembly and your ready to go.

Don't Try This With Just Any Heater!

For use on non-combustible surfaces and in well ventilated areas only.

- Perfect for temporary heating of warehouses, construction sites, garages, shop areas, machine sheds and more.
- Require **NO ELECTRICITY** and is fueled by clean, efficient propane.
- Unique & Efficient Design forces heat downward to keep the work area warmer.
- Heavy Gauge Steel Construction – **BUILT TO LAST!**
- Stackable for convenient storage
- Low Profile Prevents Tipping.
- Full Safety Features.

CH-220 Heaters Include:

- Thermocouple Safety Control
- Push Button Piezo Ignition
- Safety Excess Flow POL Tank Fitting
- Preset Regulator
- U.L. Listed Hose
- Durable, Heavy Gauge Steel Construction
