Landscape Rake

The Bobcat landscape rake is the perfect finishing tool. It rakes and collects surface debris while smoothing and leveling the soil. Two landscape rake sizes are available to fit different Bobcat models. Attachment changes are made easy with the unique Bob-Tach™ system.

Features

- Picks up rocks 3/4 in. (19 mm) and larger, and most 1/2 in. rocks.
- Hydraulic cylinder opens top cover for easier dumping, and allows the bucket and cutting edge to be used to push and scrape debris.
- Rake bars provide better leveling because of longer ground contact.
- Hardened teeth for longer wear.
- Side skis, which are adjustable, provide depth control and leave only a slight “knife-edge” mark in the finished surface.

RAKES & COLLECTS

DUMPS DEBRIS

SCRAPES

NOTE - Where applicable, dimensions are in accordance with Society of Automotive Engineers (SAE) and ISO standards. Specifications and design are subject to change without notice. Pictures of Bobcat units may show other than standard equipment. All dimensions are given for loader equipped with standard tires. All dimensions are shown in inches. Respective metric dimensions are enclosed by parentheses. Bobcat Company complies with the requirements of ISO 9001 as registered with BSI.

The Bobcat Attachments Advantage: Bobcat attachments are engineered and manufactured to fit Bobcat loaders for optimum job performance, dependability and durability.

Bobcat Landscape Rake Attachment fits these carrier models:

Skid-Steer Loaders:

753
763
S130
S150
S160
773
S175
S185
863
873
883
S220
S250
S300

Compact Track Loaders:

T180
T190
T200
T250
T300

All-Wheel Steer Loaders:

A220
A300
