

MATERIAL SPREADER AND SPRAYERS

MATERIAL SPREADER

For accurately spreading cast-on floor hardener materials such as quartz, mineral, metallic trap rock, emery and all color materials (including light reflective). Powered by a 5.5hp Honda engine with independent hydraulic controls for material flow and hopper speed. The Material Spreader provides for exacting material application rates from .50 lbs/sf to 2.5 lbs/sf.

- 1. Spans up to 60" Wide
- 2. Vertical Height to within 2" of Slab
- 3. Patented Column Bypass System
- 4. Four-Cubic Foot Hopper Capacity

Available Sections
2 ft (.61 m)
5 ft (.76 m)
5 ft (1.5 m)
7.5 ft (2.3 m)
10 ft (3.0 m)

SPRAYERS

Our powerful, reliable and durable sprayers are the preferred tool for applying release agents and water-based sealants and curing compounds on concrete construction sites. The continuous recirculating system ensures your material is always well mixed and ready to spray. Available in barrel, cart or tow mount.

Sprayer & Cart Sold Separately

Model	9910	7560XL
