

7400

Power Scrubber

Easy To Use Simple to Maintain Hard to Break

Scrubber users gave us simple directives for designing the ideal scrubber:

- Make it quiet.
- Reduce training time.
- Protect it from damage.
- Make it easy to service.
- Don't skimp on performance.

So we built the Model 7400

Designed for unparalleled cleaning performance, the 7400 features two high-speed cylindrical brushes that offer aggressive scrubbing along with dust-free debris pickup. Down pressure stays constant while the machine scrubs 70,000 square feet (6500 m²) per hour, and a high-speed vacuum recovers the cleaning solution, leaving the surface virtually dry.

These features – and many more – mean the 7400 delivers constant, reliable performance.

Productivity-enhancing options

Use the 7400's optional side brush to extend your cleaning reach to 57 inches (1450 mm). The optional squeegee wand extends your productivity by picking up spills from under racks, in corners and in other hard-to-reach spaces.

With the push of a button, the 7400 cleans at preset levels, greatly reducing training time.

One-bolt brush change, no-tool brush adjustment, no-tool squeegee change/adjustment, and remote engine oil drain hose make maintenance a snap.

A large, stylized yellow number '74' with a black outline, positioned in the bottom right corner of the page. The background of the bottom half of the page is a close-up of a speckled concrete or stone floor.

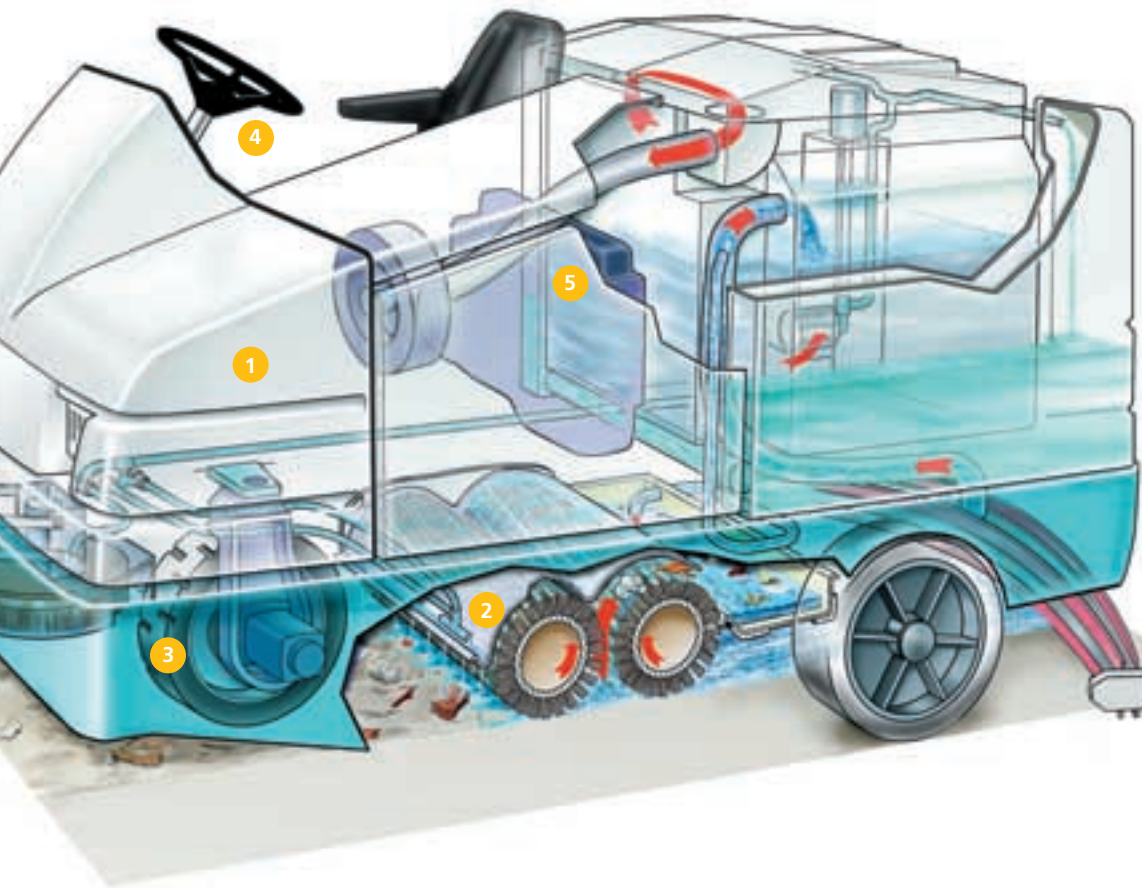

Down pressure stays constant even as the brushes wear or the surfaces change – whether indoors or out.

Built solid for heavy-duty cleaning inside factories.

Front wheel propulsion makes for dynamic maneuverability around obstacles.

The Model 7400

- 1 One-piece frame with steel, T-beam construction and wrap-around bumper means the 7400 holds up in the most rugged conditions.
- 2 Dual cylindrical brushes for sweeping light debris and scrubbing 70,000 square feet (6500 m²) per hour.
- 3 Drive tire positioned in front of scrub head for excellent traction and maneuverability.
- 4 Operator-friendly controls include one-button scrubbing, power and tilt steering, and full instrumentation with diagnostics--all to minimize training.
- 5 Hydraulic cooler and industrial radiator for maximum system protection.

7400 Power Scrubber

Specifications*

Dimensions

Length	97 in	2460 mm
Width	60 in	1525 mm
Height	58 in	1475 mm
Height (w/over head guard)	80.5 in	2045 mm
Net Weight (empty)	3,299 lb	1496 kg

Propelling System

Speed forward	8 mph	12.9 km/h
Speed reverse	4 mph	6.4 km/h
Gradeability		
Transport	(14.1 %)	8 deg
Cleaning	(10.5 %)	6 deg

Cleaning System

Scrubbing path		
Standard	45 in	1140 mm
With side brush option	57 in	1450 mm
Solution tank	70 gal	265 L
Recovery tank	72 gal	272 L
Demisting chamber	34 gal	129 L
Detergent tank (ES option)	6.7 gal	25 L
Debris hopper	1.5 ft ³	42 L
Brush speed	400 rpm	400 rpm
Brush size 2 main (length)	45 in	1140 mm

Power System

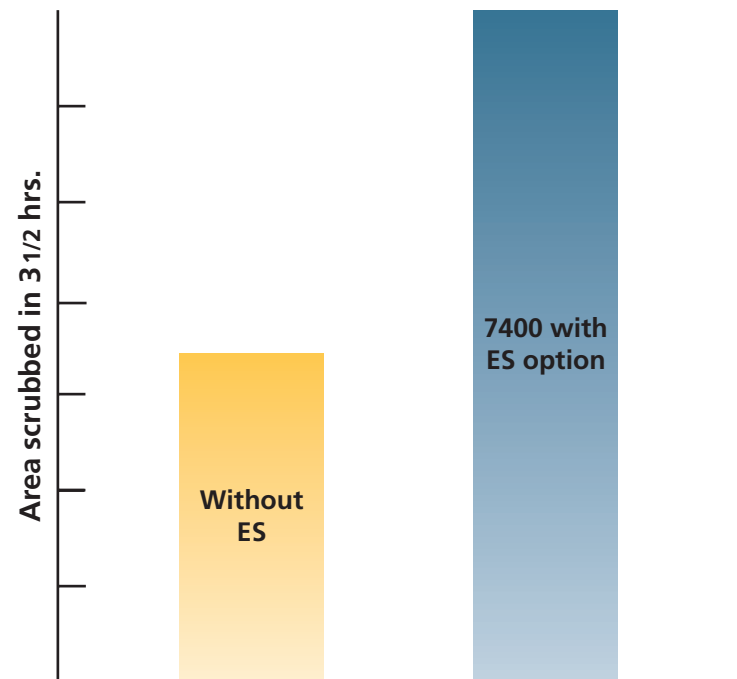

Engine-gasoline/LPG	53 hp	39.5 kW
Engine-diesel	37.5 hp	28 kW

Tennant Value Added Equipment Includes:

One button memory scrub controls all functions including solution	Dust-free debris pick-up No tool squeegee change
Dual, high-speed cylindrical brushes	Wrap-around bumper
Automatic squeegee lift	Headlights & taillights
Power steering	

Optional Equipment

Edge-cleaning side brush	Light packages
ES (extended scrubbing)	Squeegee wand
Audio visual backup alarm	Overhead guard
Positive drain control	Seat belts
Class 1, division 2 safety label	Auto fill
Spark-arresting muffler	Fire extinguisher

Eliminate unproductive tank refilling with the 7400's optional ES feature. With ES you can clean continuously for up to 3-1/2 hours – 360% more cleaning on one fill.

ES is a United States trademark of Tennant Company.
