X-150 Prowler™

[Printer Friendly](#)
[Email Page](#)

General Information

The X-150 Prowler™ gas saw is designed for residential and light commercial applications. The lightest gas saw in the Soff-Cut lineup, the X-150 Prowler™ is designed for ease of use and convenience. Features include a patented low noise system which allows the unit to be used in residential areas with minimal disruption. In addition, the low dust blade block system allows the saw to cut dry and it controls the debris for easy cleanup. Much like the entire line of Soff-Cut saws, the X-150 Prowler™ works in conjunction with Soff-Cut blades and patented skid plates to allow for ultra early entry cutting, which minimizes chipping and spalling while getting the job done the same day.
