Specially Designed for Cutting Fiber-Cement
Materials

7-1/4" Circular Saw (With Dust Collector)

Powerful 13 AMP motor allows five 5/16" siding boards to be cut in a single pass

- | Dust collection container captures waste for a clean work environment; dust port at rear of housing can be connected to a vacuum
- | Lever enables blade guard to be retracted for easier plunge cuts
- | Bearings and switch are dust proof for longer tool life
- | Bevel cuts 0° - 45° enabling a wide variety of cuts
- | Shaft lock for fast and easy blade changes
- | Includes 28 tooth carbide tipped blade designed especially for cutting fiber-cement materials

INCLUDES:

- | Carbide tipped blade (A-90451)
- | Hex wrench (782016-4)
- | Guide rule (164095-8)

Specifications:

Blade Diameter		7-1/4"
Arbor		5/8"
Max. cutting capacity	at 90°	2-3/8"
	at 45°	1-1/8"
No Load RPM		5,800
Watts out		2,100
AMPS		13.0
Length		14"
Net Weight (lbs.)		11.7
Shipping Weight (lbs.)		15.8
