MS 290 STIHL Farm Boss® Chain Saw

Our most popular model. Designed for rugged farm use, this powerful unit comes equipped with a side-access chain tensioner, IntelliCarb™ compensating carburetor, built-in winter-summer shutter for cold-weather operation and toolless filter caps. Anti-vibration system is designed to reduce fatigue.

Standard Features

- | Toolless fuel and oil caps with retainers
- | IntelliCarb™ compensating carburetor
- | Automatic oiler (adjustable)
- | Carburetor preheat shutter for summer/winter operation
- | Side access chain tensioner
- | Forged connecting rod with caged needle bearings (like pro saws)
- | [Click to view the standard features that are common to many Stihl chain saws](#)

Optional Feature

- | ElastoStart™ starter handle

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the owner's manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standards B 175.1. Your owner's manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.
